

HARIOM SHARMA

Full Stack Web Developer (MERN Stack)

Faridabad, Haryana, India | +91 9643980373 | hs7290487@gmail.com | linkedin.com/in/hariom-sharma2005

PROFESSIONAL SUMMARY

Full Stack Web Developer with 1+ years of hands-on experience building and deploying scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in RESTful API design, JWT authentication, role-based access control, and payment gateway integration (Razorpay), along with CRM dashboard development and WordPress customization. Experienced in cloud deployment across AWS, Vercel, and Render, with a strong focus on writing clean, maintainable code and delivering production-ready, real-world solutions.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB, Mongoose

Cloud & Deployment: AWS (EC2, S3), Vercel, Render

Tools: Git, GitHub, Postman, VS Code

CMS: WordPress

WORK EXPERIENCE

Web Developer Intern

June 2026 – Present

- Architecting a MERN stack-based CRM Dashboard, engineering reusable React.js UI components and RESTful APIs with Node.js and Express.js
- Designing MongoDB data models for CRM modules covering customer records, leads, and activity tracking
- Building and customizing WordPress websites — themes, plugins, and responsive layouts — aligned with client requirements
- Collaborating with the team on debugging, feature development, and code reviews to maintain clean, maintainable code

Freelance Web Developer

November 2025 – May 2026

- Architected a production-grade E-Commerce platform using React.js, Node.js, Express.js, and MongoDB
- Engineered JWT authentication, role-based access control, and secure Razorpay payment gateway integration
- Designed RESTful APIs for product management, cart, order tracking, and admin dashboard
- Deployed and managed application infrastructure on Vercel and Render

Full-Spectrum IT Assistant

April 2025 – October 2025

- Designed and customized WordPress themes aligned with brand identity and SEO best practices
- Deployed and maintained applications on AWS, Vercel, and Render
- Integrated third-party services including Razorpay payment gateway, email services, and cloud storage
- Delivered technical IT support, resolving issues with minimal downtime
- Conducted code reviews and enforced clean coding standards across projects

PROJECTS

E-Commerce Platform (MERN Stack)

- Full-featured platform with product browsing, cart, order management, and JWT authentication
- Built RESTful backend services using Node.js, Express.js, MongoDB; deployed on Vercel/Render
- Implemented role-based access control and secure Razorpay payment gateway integration for checkout flows

jobsindelhincr.in – Job Portal Platform (MERN Stack)

- Built a job portal enabling job search, applications, and employer job posting management
- Implemented secure authentication, job posting APIs, and responsive React.js UI
- Designed a clean, component-based frontend architecture for scalable feature additions

CERTIFICATIONS

MERN Stack Development – ZepCode Bootcamp, Onetick CDC	2024
● Completed an intensive 6-month, project-based MERN stack training program covering React.js, Node.js, Express.js, and MongoDB ● Built multiple full-stack applications during the program, covering component-based UI design, REST API development, database modeling, and authentication ● Gained hands-on experience with the complete development lifecycle — from planning and coding to testing and deployment
